INSPIRATIONS - PERANAKAN CULTURE
UNIQUE CULTURE AND HISTORY OF SINGAPORE

The Peranakan culture is derived from the marriage of local Malays and Chinese immigrants during the 15th to 17th century resulting in a group of unique inhabitants known as the Baba Nyonyas.

To assimilate into local Singapore communities, Baba Nyonyas partially adopted local Malay customs while retaining some of their own original practices. A mix and blend of unique design styles and colourful culture is the best description for their rich use of lace and bold batik floral patterns behind this brand new ADMIRA laminate inspiration.
