

# HOOK & HANG

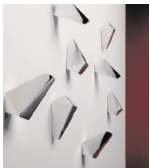

creative hanging applications

Internationally renowned architects and designers were invited to open up a new perspective for the hook as a fitment and wall object and shake off its dust as a simple object of utility. Architects and Designers overhauled form, function, surface and its way of construction and came up with new and yet familiar, playful and still innovative results. Each and every "hook" is to be considered as a compact architectural statement.

HOOKS BY DESIGNERS & ARCHITECTS

2013  
WINNER

## INNY CARMEL

**Inny** | Inny is a coat rack and wall design rolled in one. The name of the crystalline formed hook means various or distinct. And that's how it looks, too – especially if many are placed in a group. There are two elements which can be fixed to the wall in two different positions.

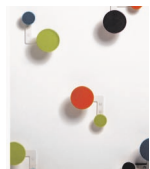

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
570900	Inny, long side	polished	aluminum	65	30	80	1
570910	Inny, short side	polished	aluminum	90	30	45	1

## SCHATTENWURF | PLANET | SCREEN

### Schattenwurf

What looks like a shadow on the wall is just another hook with additional use. It creates an appealing contrast to its front part, which is available in three galvanized surfaces and five colors – ranging from light ivory to Bordeaux-red.

### Planet

Using these wardrobe knobs walls can be structured graphically. They can be mounted in four ways – distributed or in a line. The base frame is available in grey or white and takes a back seat on light as well as on dark walls.

### Screen

A wardrobe system for planners and architects who can design and create their own panel to conform the wardrobe to the interior architectural concept.

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
570400	Schattenwurf	Ivory/Grey	RAL 1015/RAL 7024	200	90	90	1
570420	Schattenwurf	gold plated/Grey	– /RAL 7024	200	90	90	1

572610	Screen, 10 hooks	Pure white	RAL 9010	1140	115	115	1

**1001** | Two basic geometrical patterns make up this simple but fancy hook, which is related to its correspondent door opener by Peter Bastian. A column looking upwards is attached to an oblong cuboid. A coat rack bar which is made of Aluminium as well complements the "10010"

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
571010	1001	Anodized silver	aluminum	50	22	80	1
572210	1001, coat rack 8 hooks	Anodized silver	aluminum	50	860	100	1

**N** | From a certain perspective the double hook looks similar to the letter N. Due to its soft touch surface it also looks like an elastic band. The upper end is made of the curved part of a metal band, the lower part is staggered sideways. In this way, hat and coat can hang parallel without hiding one another.

Art. no.	Hook name	Colour/Surface		Material	Height (mm)	Width (mm)	Depth (mm)	pu
570100	N	ivory	RAL 1015	steel	165	85	90	1
570120	N	beige	RAL 1000	steel	165	85	90	1
570130	N	dark-grey	RAL 7024	steel	165	85	90	1
570140	N	grey	Pantone 404	steel	165	85	90	1
570160	N	bordeaux	RAL 4004	steel	165	85	90	1
570170	N	green	Pantone 398	steel	165	85	90	1
570180	N	curry-yellow	RAL 1027	steel	165	85	90	1

**Oslo** | An individual wardrobe wall can be assembled of these stylized branch modules. The regular branch structure consists of cast material. Their abstract ramification offers a lot of space to hang coats, jackets or accessories.

[illegible]

## MÄANDER BOLLES+WILSON

**Mäander** | Originally Mäander describes a sequence of river windings. Like a decorative strip, the hook elements named after those windings follow one another as long as one likes. Every element has a hook on each side. In a row these asymmetric elements build a straight line at the top while it is waved at the bottom.

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
570330	Mäander, Set of 3	ron-optic	brass	30	160	35	1
570340	Mäander, Set of 3	copper-coated	brass	30	160	35	1
570360	Mäander, Set of 3	dark	bronze	30	160	35	1
570370	Mäander, Set of 3	light	bronze	30	160	35	1

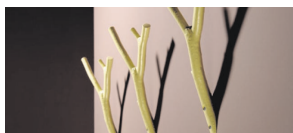

## UP SAUERBRUCH HUTTON

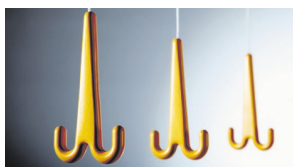

**up** | This aluminium hook does not show a visible fixation as it is hidden in many countries in Europe. They became famous its inside. It seems like wall and hook have merged. Its design is elegant and humorous at the same time. "up" is available with or without glass plate.

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
570800	up, with glass-disc	nature	aluminum/glas	60	60	55	1
570810	up, with glass-disc	Anodized silver	aluminum/glas	60	60	55	1
570880	up	nature	aluminum	30	25	50	1
570890	up	aluminum	aluminum	30	25	50	1

## AST | JONAS | RELOADED

**Ast** | As a quotation from nature this coat rack hook serves as an inventive eye-catcher. Its authentic shape is realized by a cast taken from a selected European beech branch. In the colors of orange, beige or silver it seems to grow out of the wall.

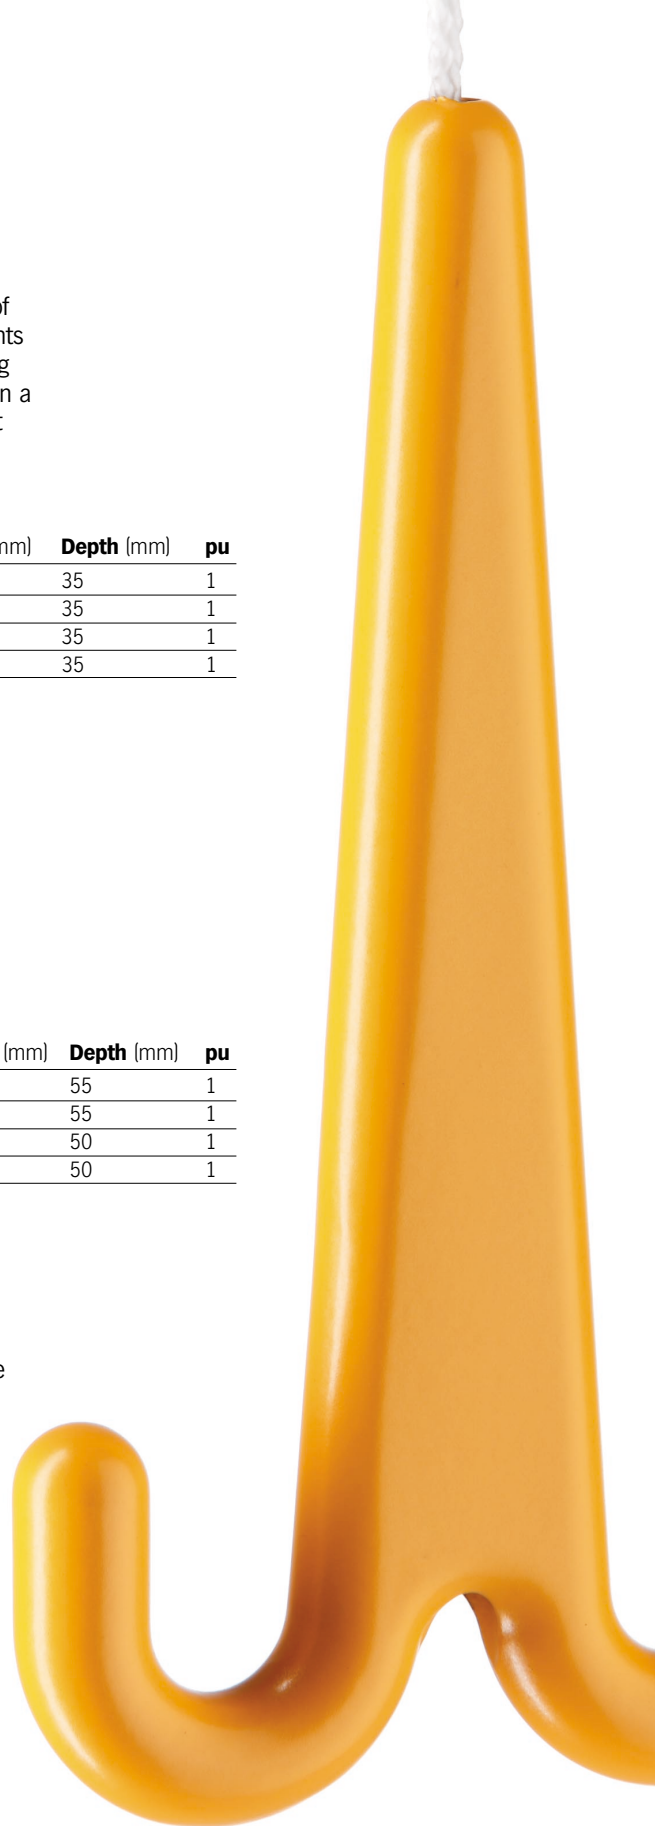

**Jonas** | This double-sided aluminum hook finished in shades of silver or yellow is fixed on the ceiling instead of the wall. These are fixed with thin strings to a same colored ceiling hook. They nearly seem to levitate. The effect is even more astonishing when hats, coats or scarves are hanging on the hooks.

**Reloaded** | An update of the traditional coat rack hook. Turning it 45 degrees it transforms into a small wardrobe with two hooks. This new interpretation with soft touch surface grants its freshness just as the vivid colors.

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
571110	Ast	matt-chrome	aluminum	290	145	90	1
571120	Ast	beige	RAL 1000 aluminum	290	145	90	1
571170	Ast	orange	RAL 2008 aluminum	290	145	90	1
570210	Jonas	matt-chrome	aluminum	150	80	12	1
570220	Jonas	melon-yellow	RAL 1028 aluminum	150	80	12	1
570230	Jonas	curry-yellow	RAL 1027 aluminum	150	80	12	1
570060	Reloaded	red	RAL 3000 aluminum	70	130	55	1
570070	Reloaded	Dahlia-yellow	RAL 1033 aluminum	70	130	55	1
570080	Reloaded	green	Pantone 398 aluminum	70	130	55	1

## FLOCK PLASMA STUDIO

**Flock** | The dynamic and at the same time cohesive structure of bird flocks was the inspiration for flock: a folded steel sheet serves as a coat hook and can be extended piece by piece to a sculptural wall installation, which allows a high contrast between light and shadow.

Art. no.	Hook name	Colour/Surface		Material	Height (mm)	Width (mm)	Depth (mm)	pu
572710	Flock, without cut-out	White aluminium	RAL 9006	steel	125	65	135	1
572760	Flock, without cut-out	Flame red	RAL 3000	steel	125	65	135	1
572770	Flock, without cut-out	Sky blue	RAL 5015	steel	125	65	135	1
572780	Flock, without cut-out	Traffic green	RAL 6024	steel	125	65	135	1
572790	Flock, without cut-out	Sulfur yellow	RAL 1016	steel	125	65	135	1
572810	Flock, with cut-out	White aluminium	RAL 9006	steel	125	65	135	1
572860	Flock, with cut-out	Flame red	RAL 3000	steel	125	65	135	1
572870	Flock, with cut-out	Sky blue	RAL 5015	steel	125	65	135	1
572880	Flock, with cut-out	Traffic green	RAL 6024	steel	125	65	135	1
572890	Flock, with cut-out	Sulfur yellow	RAL 1016	steel	125	65	135	1

## 8ER JAN KLEIHUES

**8er** | Reflecting the principle of the “Moebius-loop” the interlaced surfaces of the hook form the infinite edge line of the number eight. Its upper end is meant to carry headress, while a small notch on the lower piece facilitates the hanging of a coat. The “8er” matches its correspondent door handle.

Art. no.	Hook name	Colour/Surface	Material	Height (mm)	Width (mm)	Depth (mm)	pu
570500	8er	Anodized silver	aluminum	100	20	80	1
570510	8er, with doorstep	Anodized silver	aluminum	65	20	90	1
